

Netskope Premium Plus

[Data Sheet](#)

Enhanced Customer Support and Engagement

Netskope extends its customer services offerings to blend deep, customer-specific knowledge with best practices and troubleshooting expertise. Premium Plus complements Netskope Basic and Premium services offerings—providing various degrees of service and support based on customer needs.

Why Choose Netskope?

Netskope Premium Plus combines a proactive, strategic Technical Account Manager (TAM) with a highly technical Focused Support Engineer (FSE). The TAM works to maximize investment value, with Value Realization workshops to strengthen the ongoing partnership. The Netskope FSE provides faster response times on support tickets, so your team stays focused on adoption and operationalization.

Technical Account Manager (TAM)

- **Trusted advisor and internal advocate to help accelerate time-to-value.**
- **Technical guidance and weekly engagements to drive adoption and address challenges.**
- **Policy optimization guidance & best practice recommendations for stronger security, improved performance and a better user experience.**
- **Alignment of Netskope capabilities with business goals and security strategy.**
- **Monthly reviews of new features and enhancements.**
- **Annual Netskope tenant configuration and best-practice reviews.**

Focused Support Engineer (FSE)

- **Premium Plus Support SLAs**
- **Continuity in Support personnel for all troubleshooting**
- **Weekly Support reporting**
- **Quarterly ticket scorecard**

Key Benefits and Capabilities

Dedicated, embedded technical account management

TAMs work with customers to plan an adoption road map, based on our Value Realization Plan.

Accelerated response with proactive planning

Your Focused Support Engineer will stay up to speed on the details of tickets, working with your team to expedite troubleshooting and resolution. In parallel, the TAM concentrates on improvements and advancements in the Netskope platform.

Enabling faster time to value

Your Netskope TAM will collaborate with your team to accelerate adoption across your organization. TAMs work with the Support and Professional Services teams on your behalf to move toward complete activation and adoption.

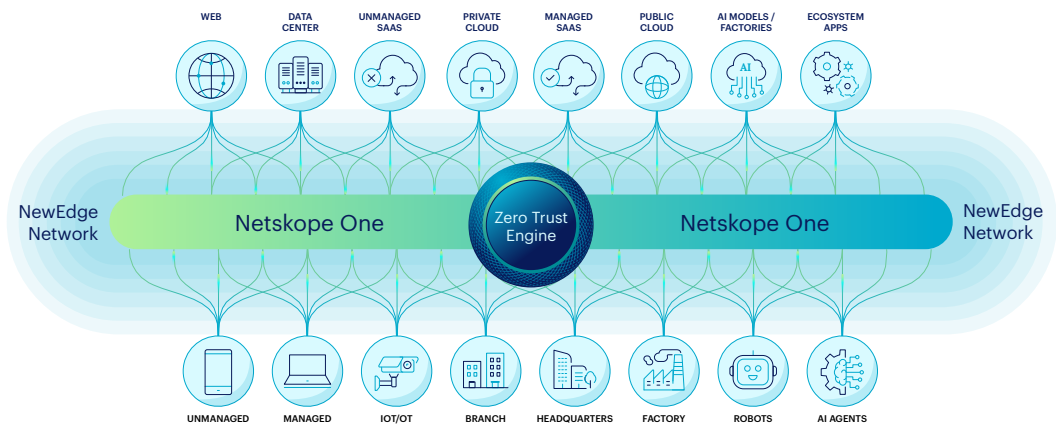

Netskope seamlessly works for you

Our highly engaged approach increases the depth of integrations and decreases the time to realize value. With optimized Support and Technical Account Management, Netskope works to protect your enterprise effectively, seamlessly, and continuously.

Netskope Premium Plus delivers expertise to your team at the right time, with the right skills.

The Netskope Difference

Netskope One is a modern, converged platform delivering security, network, and analytics services. Through its patented Zero Trust Engine, AI innovation, and NewEdge, one of the industry's largest and most performant private security clouds, we make it easy for our customers to defend their business and data from threats while delivering a phenomenal end-user experience.
