Netskope

Based on CIS's review of your company's 8/27/2021 Application for CIS Benchmarks Certification, I am happy to inform you that *Netskope CSPM 88.0* has satisfied the requirements of CIS Benchmarks Certification and is hereby awarded CIS Benchmarks Certified for the following CIS Benchmarks:

- CIS Amazon Web Services Foundations Benchmark v1.4.0. Level 1 - Server
- CIS Amazon Web Services Foundations Benchmark v1.4.0. Level 2 - Server

Grant of Limited Rights

1. Subject to your status as a CIS Secure Suite Product Vendor member in good standing and to your acknowledgment and agreement to the CIS Benchmarks Certified Program Agreed Terms of Use, as documented in your 8/27/2021 Application, CIS hereby grants to Netskope, the nonexclusive, worldwide license to mark *Netskope CSPM 88.0* with the CIS Benchmarks Certified Trademark, provided that you inform users: (a) in a manner acceptable to CIS that this CIS Certification is limited to the CIS Benchmark that is listed above, and (b) of any limitations in *Netskope CSPM 88.0*'s ability to compare a system's configuration to each of the recommended settings in the above referenced CIS Benchmarks.

2. Netskope shall not have any right to sublicense any of the rights granted to it by this Award.

Congratulations on earning these CIS Benchmarks Certified certifications for Chef Progress!

Best Regards,
