Netskope Security Cloud Operation and Administration (NSCO&A)

Delivery: Instructor Led

Duration: 3 days

Cost: 30 Netskope Training Credits

Course Date: Public class schedule at netskope.com or contact
training@netskope.com for private engagements

COURSE DESCRIPTION

The Netskope Security Cloud Operation and Administration (NSCO&A) course is an in-depth training on the Netskope Security Cloud led by a Netskope expert.

In this course, you will learn how Netskope helps IT professionals gain greater visibility and actionable information about cloud services, activity, and data in your cloud.

The course begins with an introduction to the Netskope platform and the user interface. The course will then cover key aspects of the platform such as policy creation, DLP, Threat Protection, Netskope NG-SWG, securing data in the public cloud using Netskope, generating reports and analysis and other key features. The course will provide examples and hands-on practice on how to enforce policy on any one or combination of granular factors such as service, category, user, group, device, content, data loss prevention (DLP) profile, and more.

Upon completion of this course, attendees will be able to:

- Understand the unique use cases covered by the Netskope Security Cloud
- Administer Netskope in all deployment modes
- Utilize Netskope features to assess the level of Software as a Service (SaaS) risk in an organization
- Secure traffic to and from a range of websites and cloud applications
- Secure public cloud resources
- Create granular security policies
- Restrict the use of cloud applications and services to business approved providers and instances
- Utilize the Digital Experience Management (DEM) dashboard to view the traffic and performance of your tenant
- Perform basic management of SASE gateways and policies and the options available for monitoring the Borderless SD-WAN environment.
- Discuss the advantages of implementing IoT Security on a corporate network

SCOPE

AUDIENCE	Security administrators; network administrators; sales engineers; pre-sales support; post-sales support
DURATION	3 days
FORMAT	Instructor Led (Virtual and In Person). Lectures and hands-on exercises
AVAILABILITY	Public and Private On-site/Remote
PREREQUISITES	Recommended pre-requisites: Netskope Security Cloud Introductory Online Technical Training. Additionally, some experience with the Netskope platform is preferred. Furthermore, the course is designed for attendees that have a thorough understanding of networking technologies and security concepts. Experience with other security technologies (IPS, proxy, and content filtering) is a plus.
AGENDA	**Chapter 1:** Netskope Security Cloud Platform **Chapter 9:** Netskope Advanced Analytics **Chapter 2:** Architecture **Chapter 10:** Netskope Digital Experience Management **Chapter 3:** Cloud Confidence Index (CCI) **Chapter 11:** IaaS **Chapter 4:** API-enabled Protection **Chapter 12:** Web Security **Chapter 5:** Policies **Chapter 13:** Netskope Cloud Firewall **Chapter 6:** Netskope Client **Chapter 14:** Role-Based Access Control **Chapter 7:** Threat Protection **Chapter 15:** Netskope Borderless SD-WAN **Chapter 8:** Reporting **Chapter 16:** Netskope IoT Security
